

# You Could Be His Miracle Match!

Dennis has leukemia and myelodysplasia and is critically in need of a bone marrow transplant. Since tissue type is inherited, his best chance of finding a genetically matched bone marrow donor lies with those of **Eastern-European Jewish ethnic ancestry.**

Donors will be entered into a national bone marrow registry for the benefit of patients worldwide in desperate need of life-saving matches.

Act locally and think globally. Your commitment can give someone a second chance at life!

*He who saves one life,  
it is as if he had saved the entire world.—Talmud*

## Sunday, October 3rd

### 11:00a.m. - 4:00p.m.

### Leventhal-Sidman Jewish Community Center

### 333 Nahanton Street Newton, MA 02459
